

TBM won COOL JAPAN AWARD 2017

~Foreign judges around the world agreed: New material, LIMEX has been authorized as COOL JAPAN

"LIMEX" is new material developed by TBM Co., Ltd. ("TBM") which are mainly made of limestone and It requires no wood pulp and almost no water on a process. Plus it an reduce a huge amount of oil. LIMEX can be turned into alternatives of paper and plastic without using water nor pulp.

TBM has won "COOL JAPAN AWARD"(held by: COOLJAPAN Association) at COOL JAPAN AWARD 2017 Awards ceremony. 26 products out of 104 have been nominated to COOL JAPAN 2017, selected by 100 foreign jury members. We will strive to expand our business globally considering the comments of jury members on LIMEX from now on.

■ LIMEX products

LIMEX paper alternatives products (Business cards, Print matter such as menu table etc.)

LIMEX plastic alternatives (Containers, daily necessities etc.)

We exhibited LIMEX product at the COOL JAPAN AWARD exhibition on the 25th and 26th of November 2017.
